REQUEST FOR INTERIM WAIVER
OF THE
JUNE 26, 2008 DEADLINE FOR COMPLETION OF 800 MHZ REBANDING

Pursuant to Section 1.925 (47 C.F.R. § 1.925) of the rules of the Federal Communications Commission (Commission) and the Commission’s Public Notice, the above-referenced licensee ("Licensee") requests an interim waiver of the Commission’s requirement for the Licensee to complete its 800 MHz rebanding by June 26, 2008. The Licensee recognizes that the Commission has noted: “Requests for extension will be subject to a high level of scrutiny. Licensees will be expected to demonstrate that they have worked diligently and in good faith to complete rebanding expeditiously, and that the amount of additional time requested is no more than is reasonably necessary to complete the rebanding process.”

Specifically, the Licensee requests until April 30, 2008 to complete negotiations and execute its Frequency Reconfiguration Agreement and submit a request for final waiver of the June 26, 2008 deadline for completion of 800 MHz rebanding. Licensee and Sprint have reached an agreement in principle regarding the FRA, but have not yet finalized and approved the relevant documents.

---

The public interest would be served by granting the requested interim waiver because it would allow Licensee to complete the negotiation necessary to reband its 800 MHz system in a reasonable, prudent and timely manner consistent with the goals of the 800 MHz rebanding program. In support of this Request for Interim Waiver the Licensee provides the attached Interim Waiver Request Information Form and the following explanation of the reason(s) for not having completed FRA negotiations at this point, which is consistent with the assertion that a grant of the waiver would serve the public interest.

Finally, the licensee seeks confidential treatment of the Interim Waiver Request Information Form pursuant to Section 0.459 of the FCC’s Rules because the information contained therein is highly sensitive regarding the operations of a public safety organization’s communications system. Furthermore, the information contained in the form is not otherwise publicly available. The Licensee consents to the disclosure of the form to the 800 MHz Transition Administrator (“TA”) and Sprint Nextel and requests that they treat the form as confidential.

Respectfully submitted,

Tren Urbano, Commonwealth of Puerto Rico
